Naída Bimodal Hearing Solution and Roger™: Easy to Connect

AB Advanced Bionics

Recipients with the Naída bimodal hearing solution can easily connect to a range of Phonak Roger™ technologies for simultaneous wireless streaming to a Naída CI sound processor and a Phonak Naída™ Link hearing aid.
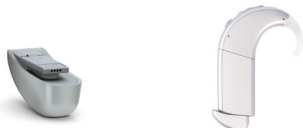

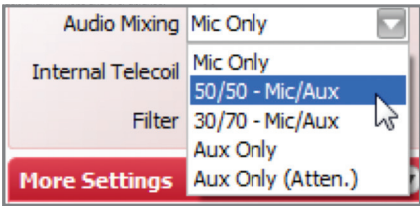

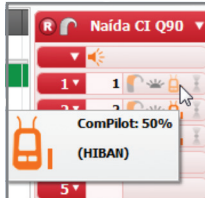

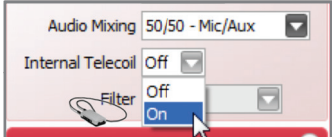

What is Roger?

- Roger is the digital wireless standard.
- Roger wirelessly transmits the speaker's voice directly to the listener to improve speech understanding in noise and over distance.
- Roger transmits high-quality audio to Naída CI and Naída Link at the same time.

Compatible Roger Microphone Solutions

- Roger™ Pen
- Roger™ EasyPen
- Roger™ Clip-On Mic
- Roger inspiro™
- Roger Touchscreen Mic
- Roger Pass-around
