

Ponto 4 Open Sound. Open Life

Introducing Ponto 4

Over two million hearing aid users have already had their lives changed by the groundbreaking technology in Oticon Opn™. Now this technology is available for the first time to bone anchored users with Ponto 4. Built on the unique Velox S™ platform, Ponto 4 offers speed and precision for constant access to 360 degree sound. The result is a full and open soundscape.

With the smallest design in the market*, the sleek Ponto 4 combines discretion and reliable performance. It uses 2.4 GHz wireless technology and is also the world's first bone anchored sound processor that can be connected to the internet**.

Join the open sound revolution
and a future of connected hearing
