

Fully customize
your daily life.

Bellman Alerting Systems Smart home solutions.

Our modular family of transmitters and receivers work together wirelessly to help people with hearing challenges stay connected and safe at home. Designed as a professional-grade safety and notification solution, our alerting systems promote dignity, independence, and peace of mind.

Reliability

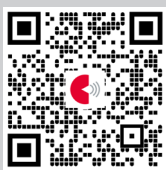

Long-range radio coverage, battery backup, and robust design ensure performance even during power outages or in challenging environments.

Independence

Stay aware of calls, visitors, and alarms without relying on others to inform you of important events.

Ease of Use

Intuitive setup, color-coded signals, and minimal maintenance. Designed to be accessible for staff, caregivers, and users alike.
