

For professionals

A Collection of Hearing Solutions **Tailored to Your Patients**

A photograph of two chefs in a professional kitchen. On the left, a man in a blue chef's coat and a blue toque is looking down at a plate. On the right, a woman in a white chef's coat and a tall white toque is smiling and looking at the same plate. They are both wearing tan aprons. The plate contains a piece of meat, green vegetables, and a yellow sauce. In the background, other kitchen staff and equipment are visible.

Beltone **Portfolio**

Tailored Hearing

At Beltone, we believe everyone deserves premium hearing care—no matter their hearing, lifestyle or needs. So we put our 80+ years of dedication, innovation and research to the test and created a truly groundbreaking and award-winning collection of hearing solutions tailored to each person.

Tailored sound

- Top rated by users for speech-in-noise performance¹
- Industry-best access to surrounding sound²
- Natural own voice perception³

Emulating the natural hearing process and the natural ways we listen as closely as possible, helping the brain to hear as nature intended.

Tailored comfort

- Comfortable all-day wear
- All-weatherproof design
- All-day battery on one charge

Adapts to the person for the best wearing comfort all day long, with ease of use.

Tailored connectivity

- Crystal clear phone calls
- Hands-free calls for iPhone and iPad^{*}
- Direct streaming with select Android devices

Inspired by the way we intuitively interact with devices in our daily lives.

Check device compatibility at [Beltone.com/en-us/all-devices](https://www.beltone.com/en-us/all-devices)
^{*} Beltone hands-free calls are compatible with iPhone 11 or later, iPad Pro 12.9-inch (5th generation), iPad Pro 11-inch (3rd generation), iPad Air (4th generation), iPad mini (6th generation) or later, with software updates iOS 15.3 and iPadOS 15.3 or later.

Experience More of Life

Beltone Serene™

Help your patients hear their best in noise with Beltone Serene™

These tiny but powerful hearing aids are made for noisy, everyday life and offer a discreet and comfortable solution to hearing loss, so they can focus on the people and things they love.

Tailored sound

- Top-rated by users for speech-in-noise performance¹
- Improve the full sound experience with the M&RIE receiver option
- CROS/BiCROS solution for greater audibility all around

Tailored comfort

- Highest user acceptance rate²
- Our tiniest rechargeable style offering all-day power³
- Initial sound comfort for first time users

Tailored connectivity

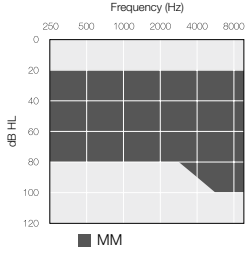

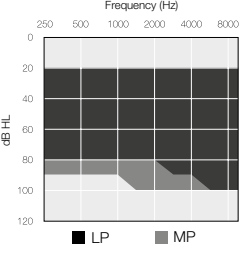

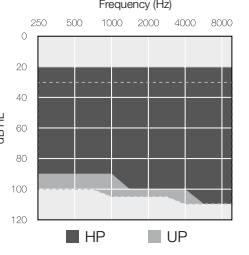

- Prepared for the future with Bluetooth Auracast connection to all enabled devices
- TV-Streamer+ gives patients immediate speech clarity at their preferred volume
- Pick up calls with a double tap on the ear or hearing aid on compatible iOS and Android devices. For a list of devices. See <https://www.beltone.com/en-us/all-devices>

Supports all Beltone hearing aids (except Beltone Rely tech level 2 and CIC styles)

Flexible Fitting Options For All Needs

Give your patients a great first experience with hearing aids and enable them to hear their best in noise with Beltone Solus Max™ fitting software.

One seamless ecosystem covering the entire portfolio

- One fitting software and one app for all needs
- Convenient and individual remote hearing care, anytime, anywhere
- More time to focus on patients with an efficient workflow

Offer hearing care anywhere

Beltone Remote Care and Beltone Remote Care Live are two powerful ways to reach out remotely and help your patients wherever they are.

- Use Beltone Remote Care for fine-tunings, arranged via direct message in your patient's HearMax app
- Use Beltone Remote Care Live for video consultations in real time, for in-ear tests, hearing assessments, fittings and fine-tunings

+11 dB
more feedback-free gain¹

Help your patients with correct hearing aid wear

Check My Fit helps users to wear their hearing aids properly and get the most out of their Beltone style each day, which can lead to fewer service visits. Our insights show that wearing hearing aids correctly allows an average of 11 dB more feedback-free gain that is often lost with incorrect wear¹. Using Check My Fit in the Beltone HearMax app, 70% of users wore their hearing aids better.²

70%
users wore their hearing aids better²

Feature Overview

			Premium Beltone Serene				Advanced Beltone Achieve				Essential Beltone Rely				Super Power Beltone Boost Ultra		
Features	Description		SER17	SER9	SER6		IMP17	IMP9	IMP6		RLY4	RLY3	RLY2		BBU17	BBU9	BBU6
Sound Quality																	
 WDRC bands	Replicates the way the natural ear divides sound into distinct pitches.		17	14	12		17	14	12		12	8	6		17	14	12
 Environment recognition	Uses Ear-to-Ear communication to automatically adjust the volume and the amount of noise reduction for optimum listening comfort and sound quality across 7 different listening environments. Noise reduction can be customized for different environments in tech level 17.		Smart Gain Pro	Smart Gain	Smart Gain		Smart Gain Pro	Smart Gain	Smart Gain						Smart Gain Pro	Smart Gain	
 Directionality	Binaural hearing strategy uses real time information about the user's environment and stronger directional patterns to ensure smooth adjustments of directional settings. May use M&RIE or Personal Sound ID for spatial cue preservation.		CrossLink Directionality 4	CrossLink Directionality 3	CrossLink Directionality 2		CrossLink Directionality 4	CrossLink Directionality 3	CrossLink Directionality 2		Spatial Directionality	SmartBeam	Adaptive Directionality		CrossLink Directionality 2	CrossLink Directionality	Spatial Directionality
 Speech intelligibility in noise	Forms a stronger directional pattern using the sound from both hearing aids so your patient can focus on the person in front of them.		Ultra Focus 2	Ultra Focus	Adaptive Directionality		Ultra Focus 2	Ultra Focus	Adaptive Directionality		Adaptive Directionality	Adaptive Directionality	Adaptive Directionality		Adaptive Directionality	Adaptive Directionality	Adaptive Directionality
 Impulse Noise Reduction	Reduces disturbing background sound without affecting speech audibility.		5 settings	3 settings	2 settings		5 settings	3 settings	2 settings		On / Off	On / Off	On / Off		5 settings	3 settings	2 settings
 Comfort	Reduces low level noise in very quiet environments. Quickly detects and reduces amplification for sudden, brief loud noises and reduces wind noise without reducing gain for other sounds.		3 settings	3 settings	On / Off		3 settings	3 settings	On / Off		On / Off				3 settings	3 settings	On / Off
 Feedback Management	Reduces unwanted feedback in nearly any situation without compromising gain via phase cancellation with static and dynamic Filters. Ensures that tonal sounds found in music are correctly identified while still allowing for reduction of true feedback.		Feedback Eraser 2	Feedback Eraser 2	Feedback Eraser 2		Feedback Eraser 2	Feedback Eraser 2	Feedback Eraser 2		Feedback Eraser	Feedback Eraser	Feedback Eraser		Feedback Eraser	Feedback Eraser	Feedback Eraser
 Low frequency boost	Optimizes loudness for users with severe and profound hearing losses. Boosts the listening experience with a louder, fuller sound quality when needed.		3 settings	2 settings	On / Off		3 settings	2 settings	On / Off		On / Off	On / Off	On / Off		3 settings	2 settings	On / Off
Connectivity																	
 Direct audio streaming	Enjoy the convenience of streaming audio directly from your iPhone, iPad or Android device in everyday situations like listening to music or take a call. Essentially, the hearing aids can work as a wireless headset connects directly to your patient's mobile device.		Hands-free calls and direct streaming for iPhone and iPad Connecting hands-free to compatible Bluetooth 5.3 or later devices with Beltone Serene, including select Android phones				Hands-free calls and direct streaming for iPhone and iPad.
